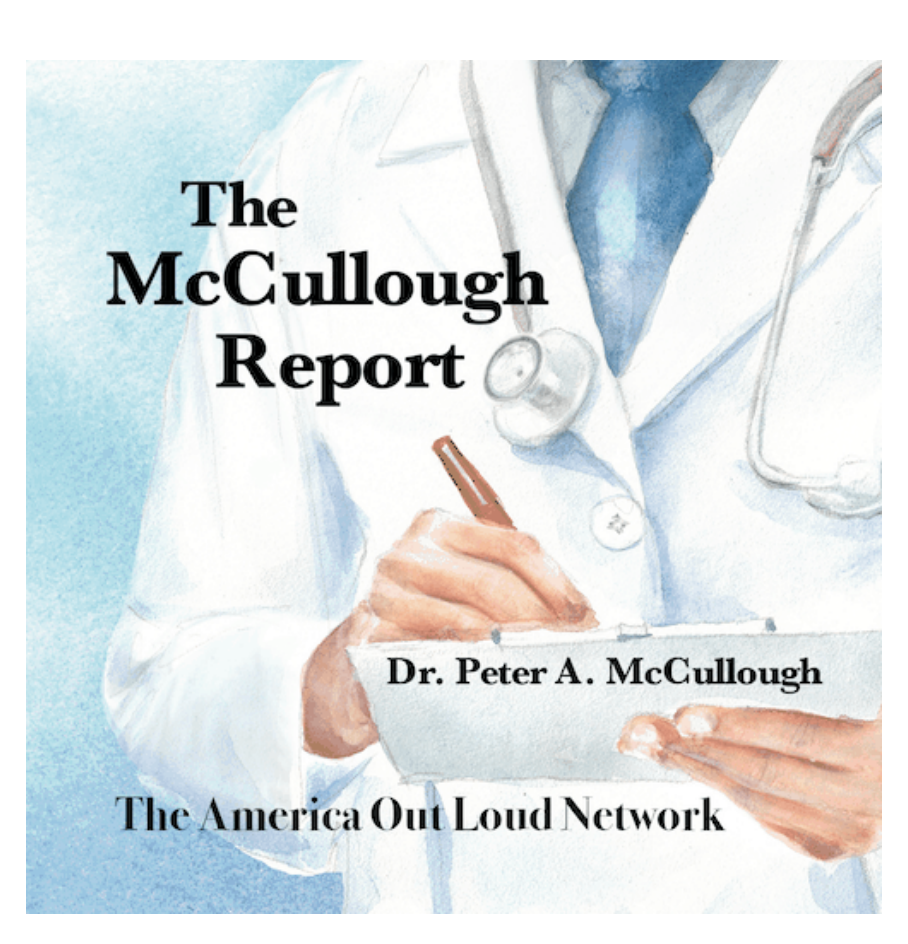
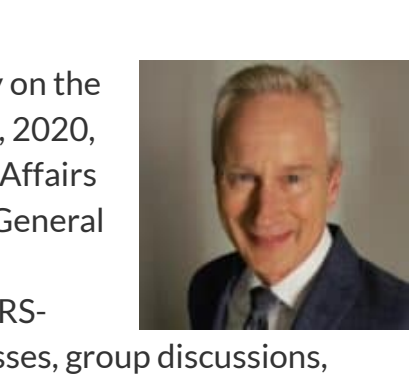
The McCullough Report



Sat/Sun 2 PM ET Encore 7 PM

Dr. Peter McCullough is an internist, cardiologist, epidemiologist, in academic medical practice in Dallas, Texas, USA. He maintains ABIM certification in internal medicine and cardiovascular diseases. He practices both internal medicines including the management of common infectious diseases as well as the cardiovascular complications of both the viral infection and the injuries developing after the COVID-19 vaccine. Since the outset of the pandemic, Dr. McCullough has been a leader in the medical response to the COVID-19 disaster and has published "Pathophysiological Basis and Rationale for Early Outpatient Treatment of SARS-CoV-2 (COVID-19) Infection" the first synthesis of sequenced multidrug treatment of ambulatory patients infected with SARS-CoV-2 in the American Journal of Medicine and subsequently updated in Reviews in Cardiovascular Medicine.



McCullough has 46 peer-reviewed publications on the infection and has commented extensively on the medical response to the COVID-19 crisis in *The Hill and on FOX NEWS Channel*. On November 19, 2020, Dr. McCullough testified in the US Senate Committee on Homeland Security and Governmental Affairs and throughout 2021 in the Texas Senate Committee on Health and Human Services, Colorado General Assembly, and New Hampshire Senate concerning many aspects of the pandemic response. Dr. McCullough has had one full year of dedicated academic and clinical efforts in combating the SARS-CoV-2 virus and in doing so, has reviewed thousands of reports, participated in scientific congresses, group discussions, press releases, and has been considered among the world's experts on COVID-19.

About the Show: McCullough is known for his iconic views on the state of medical truth in America and around the globe pierces through the thin veil of mainstream media stories that skirt the major issues and provide no tractable basis for durable insight. McCullough is joined by experts in medicine, biotechnology, public health, and policy to bring critical information and insights to the listeners in a concise and understandable format. After working with dozens of hospitals and clinics across the globe.

Sit back, take notes as you are so inclined, but you will always come away better informed and more settled in your direction forward regarding personal and family medical navigation, home and health products, diagnostic tests, pharmaceuticals, medical devices, and the path forward for you and your loved ones.

Boosters Could Mean Regular Injections are Part of Your Life Forever

by **Dr. Peter McCullough** | Oct 4, 2021 | Healthcare, Politics,

What we are witnessing is that many Americans have made their choice and would rather risk a COVID-19 hospitalization than immediate death or injury with vaccination. Inarguably, the three outcomes to avoid with either choice are 1) death, 2) hospitalization, and 3) permanent disability. Following the theme of pharmacovigilance, we have a…

COVID Q & A with Dr. Peter McCullough, #5

by **Malcolm Out Loud** | Oct 1, 2021 | Healthcare, Politics,

Vaccines are coming soon for children under 12. This is a big problem. How should I prove to my ex that my kid does not need a vax? – Can Dr. McCullough please explain the argument against everyone needing to be vaxxed for herd immunity to COVID? – How can 96% of all US doctors be covid vaccinated? Makes me feel like being unvaccinated is a bad choice. Are these stats correct?

Keeping Clean Where it Counts

by **Dr. Peter McCullough** | Sep 27, 2021 | Healthcare, Politics,

The hospitalization rates and oxygen support and death rates were 3.3% vs. 20.8% and 0.66% vs. 5.61% (84% and 88% reductions, respectively) for the povidone-iodine vs. lukewarm water groups, p<0.0001. We know to apply these concepts to pre-exposure prophylaxis twice a day and postexposure four times a day...

Oral and Nasal Virucidal Therapy in Prevention and Treatment of COVID-19

by **Dr. Peter McCullough** | Sep 24, 2021 | Healthcare, Politics,

In a summary from Jennifer Block in the British Medical Journal, there are now 20 supportive studies demonstrating the immunity after SARS-CoV-2 respiratory infection is robust, complete, and durable and cannot be improved upon with vaccination…

COVID Q & A with Dr. Peter McCullough, #4

by **Malcolm Out Loud** | Sep 22, 2021 | Healthcare, Politics,

I'm trying to save my husband's life! Please, help me. What can be done to keep my husband from being put on a ventilator? – If I have T-cells in my body after recovering from COVID, is there any chance of me unknowingly being a carrier of COVID and giving it to my unvaccinated elderly parents? – I heard Dr. McCullough say that once you've had Covid19, you cannot get it again. Does that include all variants, ie, Delta?

All Roads Lead to Rome for the First International COVID Summit

by **Dr. Peter McCullough** | Sep 20, 2021 | Healthcare, Politics,

The conference emphasized there are many ways to treat the infection and that single drugs are individually neither necessary nor sufficient. There are arrays of drugs that are organized to reduce replication of the virus, treat inflammation, and then thin the blood to reduce the risk of blood clotting which is the cause of hypoxemia and the most common mechanism of death in COVID-19…

COVID Q & A with Dr. Peter McCullough, #3

by **Malcolm Out Loud** | Sep 15, 2021 | Healthcare, Politics,

We have had no side effects that we are aware of from the vaccine. Does this mean we are free from future side-effects? Should we forego any boosters? Did the vaccine destroy our natural immunity? Should I be more concerned about getting the virus or future variants? How accurate is the VAERS data? Join us on the Voice of a Nation for our third COVID Q & A with Dr. Peter McCullough…

Special Doctors are Heroes Risking all They Have for Their Country

by **Dr. Peter McCullough** | Sep 14, 2021 | Healthcare, Politics,

At a time of crisis and failure of our public health agencies, America needs our strongest voices in medicine to discuss and debate the scientific literature and rapidly evolving information coming out on the pandemic. The flickering light of hope for sparing hospitalizations and saving lives is being snuffed out with the crushing authority from…

COVID Q & A with Dr. Peter McCullough, Part 2

by **Malcolm Out Loud** | Sep 9, 2021 | Healthcare, Politics,

People are relying on what were once very reliable health agencies, and even more so their doctors in the medical community who have also fallen victim to the campaign of untruths. Life and death decisions are being made on faulty agenda-driven soundbites from people who have not a clue of what is going on…

Conflict of Interest Driving Public Vaccination

by **Dr. Peter McCullough** | Sep 7, 2021 | Healthcare, Politics,

One can only speculate on the motives for resignation after such a disastrous act of regulatory malfeasance that was undoubtedly pressured by many vaccine stakeholders. Several major public health players have become deeply financially invested in the decision to promote mass vaccination on the population. The last two FDA commissioners have joined firms that directly profit from…

COVID Q & A with Dr. Peter McCullough

by **Malcolm Out Loud** | Sep 2, 2021 | Healthcare, Politics,

How can an average, retired person such as myself find a source for ivermectin or HCQ? Is the Regeneron safe to get. I found out that it has spike proteins. Is it safe? Please, Dr. McCullough, can you give your analysis of the Novavax Covid vaccine? If I have the antibodies, would I be safe from the COVID variant? Can someone help me get a T-Detect test?

Pfizer-BioNTech COVID-19 Vaccine Steamrolled on America

by **Dr. Peter McCullough** | Aug 30, 2021 | Healthcare, Politics,

There was no committee of academic and statistical experts to review the results. Instead, a meeting was held between the pharmaceutical companies and the FDA, and legacy data, preceding the Delta outbreak was reviewed giving the meeting participants a knowingly false impression of high vaccine efficacy which clearly has been lost as the SARS-CoV-2 had mutated…

Vaccinated Becoming Persons of Interest

by **Dr. Peter McCullough** | Aug 23, 2021 | Healthcare, Politics,

Our CDC director and recent studies have shown that the vaccinated not only can become ill will COVID-19 in the setting of vaccine failure, but they can also carry the virus in very high viral loads in the early symptomatic phase and, in this context, can become individual super-spreaders. So indeed, we are in a crisis of the vaccinated…

Treatment

by **Dr. Peter McCullough** | Aug 17, 2021 | Healthcare, Politics,

When COVID-19 deaths occur in the hospital the most common finding is blood clots in the lungs and elsewhere in the body due to inadequate anticoagulation. Hopefully with these tips, for those who have COVID-19 or will get it soon, whether vaccinated or not, will be useful in keeping the syndrome to a mild 4-day cold and a deliverance to natural immunity…

Delta Making Waves

by **Dr. Peter McCullough** | Jul 28, 2021 | Healthcare, Politics,

Delta and Delta Plus appear to be infecting equally those unvaccinated and vaccinated, as shown from data in the UK and Israel. This is very different from what is in major media at this time which has the government-issued talking point "we have a current crisis of the unvaccinated." The CDC announced in late April after over 10,000 vaccine failures…

Ill-Conceived COVID-19 Mass Vaccination Program Could Be Catastrophic

by **Dr. Peter McCullough** | Jul 12, 2021 | Healthcare, Politics,

Mass vaccination into a pandemic is "fooling with mother nature" in a manner that could be catastrophic if the indiscrimination program continues to be forced on the population. With this as a backdrop, we continue to have a need for early multidrug treatment for COVID-19 for both the vaccine breakthrough cases and the de novo patients…
